

CUMULATIVE INDEX 1997

Volume 14

January	PEDIATRIC PODIATRY, pages 1-233
April	IMAGING OF THE FOOT AND ANKLE, pages 235-405
July	SPORTS MEDICINE AND REHABILITATION, pages 407-584
October	AMPUTATIONS OF THE LOWER EXTREMITY, pages 585-820

Note: Page numbers of article titles are in **boldface** type.

- Abscess, in diabetes mellitus, 240-241
 magnetic resonance imaging of, 254-256
 treatment of, 673-674, 676-677
 Acetabular dysplasia. See *Hip, instability of*.
 Acetabular index, in hip radiology,
 190-191
 Achilles tendon, imaging of, in
 inflammation, 289-292
 in rupture, 317, 321
 magnetic resonance, 317-320
 lengthening of, in flatfoot, 96-97
 with midfoot amputation, 756-759
 Achilles tendon injuries, in athletes,
 447-458
 classification of, 448-449
 diagnosis of, 449-452
 disability in, 448
 etiology of, 447-448
 incidence of, 447
 insertional tendinopathy, 449-450
 midportion, 451-452
 myotendinous junction, 452
 pathology of, 448
 prevention of, 449
 treatment of, 450-453
 young, 574
 in ballet dancers, 528-529
 Acupuncture, in peroneal tendon injuries,
 456
 Adjuvant therapy, with amputation, in
 malignancy, 615-616
 Airway obstruction, postoperative, in
 pediatric patients, 146
 Albumin levels, in healing prediction, 670,
 765
 Ambulation, after amputation, metabolic
 cost of, 599-602
 midfoot, 759-760
 pathomechanics of, 776-777
 potential for, 594-596
 transmetatarsal, 759-760
 weight distribution in, 731-732
 biomechanics of, 775-776
 Americans with Disabilities Act,
 amputation and, 585-586
 Amniotic band sequence (constricting
 band syndrome), 633-636
 Amputation, 585-597
 Achilles tendon lengthening with, 756-
 759
 ambulation after. See *Ambulation*.
 Americans with Disabilities Act and,
 585-586
 art of, 667-678
 at tarsometatarsal joints (Lisfranc), 753-
 755, 763, 780-781
 bilateral, metabolic cost of, 601
 biomechanical effects of, 777-778
 body image in, 587
 Boyd-Pyrogoff, 763-764
 Chopart, 754, 756, 763
 prostheses for, 780-782
 complications of, 590
 concurrent health problems with, 594
 contralateral foot condition in, 593
 discharge plan for, 595
 emotional shock in, 589-590
 failure of, 728-729
 hallux, 720, 777, 779
 health care team for, 586
 in infection or ischemia, 667-689
 in lawnmower injury, 605-608
 in pediatric patients. See *Pediatric pa-
 tients*.
 internal versus external, 682, 684
 level of, 587-588

Amputation (*Continued*)

- in infection or ischemia, 668-671, 681-682
 - midfoot, 742-744
 - transmetatarsal, 742-744
 - Lisfranc and modifications, 753-755, 763
 - prostheses for, 780-781
 - long-term care after, 785-800
 - metabolic cost of, 599-602
 - midfoot, 741-762
 - phantom sensation and pain in, 589, 591
 - postoperative care in. *See Postoperative care.*
 - preoperative preparation for, 588
 - preventive interventions for, 785-800
 - Firm system in, 790-792
 - Preservation Amputation Care and Treatment program in, 787-790
 - primary care provider in, 786
 - priorities for, 786
 - smoking cessation programs in, 792-798
 - toes, 692-693
 - prostheses for. *See Prostheses.*
 - ray resections and. *See Ray(s), resection of.*
 - recreational activities in, 596
 - rehabilitation in. *See Rehabilitation.*
 - repeat, prevention of. *See Amputation, preventive interventions for.*
 - stump care in, 592-593
 - support groups for, 597
 - Syme's. *See Syme's amputation.*
 - toe. *See under Toe(s).*
 - transmalleolar. *See Syme's amputation, transmalleolar.*
 - transmetatarsal. *See Transmetatarsal amputation.*
 - tumor as indication for, 613-620
 - using freezing, 676-677
 - versus reconstruction, in major trauma, 603-612
- Analgesia, in pediatric patients, 131-148**
- complications of, 143-144
 - definition of, 132
 - nothing by mouth guidelines for, 135
 - opioids in, 136
 - outside operating room, 132-133
 - postoperative, 144-147
 - preoperative examination for, 133-134
- Anaphylactic reactions, perioperative, 144**
- Anchoring systems, for arthroscopic ankle stabilization, in athletes, 471-473, 475-476**
- Anesthesia, for amputation, 745**
- Syme's, 765-766
 - in pediatric patients, 131-148
 - complications of, 143-144
 - controversies in, 138-139
 - definition of, 131-132

- epidural, 141
 - fluid management in, 140
 - intraoperative, 139-143
 - intravenous lines for, 140
 - nothing by mouth guidelines for, 135
 - outpatient, 134-135
 - outside operating room, 132-133
 - postoperative considerations in, 144-147
 - premedications and, 136-138
 - preoperative examination for, 133-134
 - regional, 141
 - selection of, 139-140
 - spinal, 141
- Aneurysmal disease, angiography of, 270-274**
- Angiography, of adventitial cystic disease, 273**
- of arterial aneurysmal disease, 270-274
 - of arterial entrapment, 273
 - of arterial occlusive disease, 268-270
 - of diabetic foot, 244-245
 - of ergotism, 273
 - of thromboangiitis obliterans, 273
 - of venous disease, 278-279
- Ankle, amputation and salvage procedures**
- in, in congenital conditions, 621-633
 - fibular hemimelia, 623-624, 626-632
 - tibial hemimelia, 624-627, 632-633
- arthroscopic stabilization of, in athletes, 459-478**
- advantages of, 468
 - anatomic considerations in, 460-461
 - anchoring systems for, 471-473, 475-476
 - diagnosis before, 462, 470
 - pathomechanics of, 460-461
 - portals for, 469
 - techniques for, 468-474
 - versus nonarthroscopic procedures, 462-468
- deformity of, in clubfoot, 18, 20**
- disarticulation of, in tibial hemimelia, 632**
- Syme's. *See Syme's amputation, transmalleolar.*
- injuries of, in ballet dancers, 529**
- in young athletes, 570-573**
- sprains of, arthroscopic stabilization of. *See Ankle, arthroscopic stabilization of.***
- rehabilitation in, 539-555**
- Ankle block anesthesia, for amputation, 745**
- Ankle-brachial index, in healing**
- prediction, 668-669, 765
- Ankle-foot orthosis, for midfoot amputation, 781**
- Ankylosing spondylitis, imaging of, 374**
- Ankylosis, in arthritis, radiography of, 371**
- Anterior drawer test, in ankle instability, 462**

- Anteroposterior view, in radiography, of
 calcaneal fractures, 341
- Antetorsion, definition of, 58
- femoral, in-toe gait in, 61-68
- Anteversion, hip, normal angle of, 63-64
- Anteversion syndrome, 58, 60
- Antibiotics, in amputation, 699, 726
 in osteomyelitis, 675-676
 preoperative, 135-136
- Antibodies, technetium 99m-labeled, in
 diabetic foot scan, 250, 252
- Anti-inflammatory agents, homeopathic, in
 Achilles tendon injuries, 450-451, 453
 in peroneal tendon injuries, 456-457
- Antiperspirants, in hyperhidrosis, in
 athletes, 515-516
- Aorta, abdominal, angiography of, in
 aneurysmal disease, 270-272
 in occlusive disease, 268-269
- Aortography, of aneurysmal disease,
 270-272
- Apophyseal injuries, in young athletes,
 573-574
- Arterial calcification, in diabetes mellitus,
 237, 240
- Arterial occlusion, amputation and salvage
 procedures in, 659
- Arthritis, gouty, heel pain in, 295-296
 imaging of, 379-381
 imaging of, 387-398. *See also Arthritis, radiography of.*
 arthrography in, 389-391
 bone scanning in, 387-389
 computed tomography in, 392, 394-396
 magnetic resonance, 395, 397
 tenography in, 390, 392-393
 radiography of, 369-385
 degenerative (osteoarthritis), 377-379
 gouty (crystal deposition), 379-381
 in connective tissue diseases, 381-382
 neuropathic, 382-384
 osteomyelitis, 382-384
 principles of, 369-370
 psoriatic, 374-376
 rheumatoid, 372-374
 septic, 382-384
 seronegative spondyloarthropathies, 374-377
 sesamoid bones, 384
 rheumatoid, bone scan of, 389
 heel pain in, 295
 imaging of, 372-374
 septic, imaging of, 382-384
- Arthrodesis, of first metatarsophalangeal
 joint, in hallux limitus, 425
- Arthrography, of arthritis, 389-391
- Arthropathy, Charcot, after amputation,
 731, 733-734
- Arthroplasty, as amputation alternative,
 694-695, 702-707
 implant, in hallux limitus, 425
- Arthrorrhesis, subtalar, 87-98
- Arthroscopy, in ankle stabilization. *See*
 Ankle, arthroscopic stabilization of.
- Athletes. *See Sports medicine.*
- Athlete's foot, 517-519
- Atrophic neuropathy, in diabetes mellitus,
 236-237
- Austin procedure, in hallux valgus,
 438-441
- Austin-Youngswick procedure, in hallux
 limitus, 424
- Automated profile testing, preoperative, in
 pediatric patients, 168-172
- Avascular necrosis, of calcaneus, imaging
 of, 288-289
- Bacterial culture, of amputation site, 697
- Balance, with amputation, 594
- Ballet, overuse injuries in, 525-532
- Barlow's test, for hip instability, 188
- Baths, contrast, in athlete rehabilitation,
 535
- BeBax shoe, 210
- Beighton-Horan criteria, for ligamentous
 laxity, 125, 127
- Biomechanics, of ambulation, 775-776
 after amputation, 777-778
- Biopsy, of tumor, 615
- Black heel syndrome, in athletes, 511-512
- Blisters, in athletes, 512
- Blood testing, preoperative, in pediatric
 patients, 164-171
- Blood vessels, transection of, in
 amputation, 697
- Body image, in amputation, 587
- Bohler's angle, 339
- Bone, debridement of, as amputation
 alternative, 701
 sclerosis of, in arthritis, radiography of,
 371
- Bone graft, in lawnmower injury
 reconstruction, 606
- Bone scans. *See Nuclear medicine scans.*
- Bonney-Kessel procedure, in hallux
 limitus, 424-425
- Boots, compression, in athlete
 rehabilitation, 538
 cryoamputation, 676-677
- Boyd-Pyrogoff amputation, 763-764
- Brachman skate, 225
- Brachymetatarsia, 642-643
- Bracing. *See Splinting and bracing.*
- Broden's view, in radiography, of
 calcaneal fractures, 341
- Brostrom procedure, for ankle
 stabilization, 467

- Brown's technique, in tibial hemimelia treatment, 632-633
- Bruises, in athletes, 512-513
- Buerger's disease, angiography of, 273
- Bunion. See *Hallux valgus*.
- Bupivacaine, in pediatric surgery, 140-141
- Bursal cysts, in athletes, 523
- Bursitis, Achilles, imaging of, 289-292, 319
- in athletes, 513
- retrocalcaneal, imaging of, 291-292, 319-320
- Calcaneal apophysis, osteochondrosis of (Sever's disease), 298
- Calcaneal petechiae (black heel syndrome), in athletes, 511-512
- Calcaneocuboid joint, deformity of, in clubfoot, 20, 23
- Calcaneofibular ligament, anatomy of, 460
- pathomechanics of, 461
- reconstruction of, 463-467
- repair of, arthroscopic, 468-474
- surgical, 467
- Calcaneovalgus deformity, in hip instability, 183
- shoe therapy for, 212
- Calcaneus, avascular necrosis of, imaging of, 288-289
- changes in, in Reiter's syndrome, 377
- in rheumatoid arthritis, 373-374
- deformity of, in clubfoot, 18
- fractures of, 337-356
- anatomic considerations in, 338-339
- anterior process, radiography of, 342
- avulsion, radiography of, 342
- beak, radiography of, 342
- classification of, 337
- imaging of, 287-288
- computed tomography in, 344-353
- magnetic resonance, 353
- radiography in, 341-343
- radionuclide scintigraphy in, 353
- mechanism of injury in, 340
- old, computed tomography of, 351
- stress, 287-288
- radionuclide scans of, 353
- tuberosity, radiography of, 342
- pain within. See *Heel-spur syndrome*.
- tumors of, imaging of, 292-293
- Calcification, arterial, in diabetes mellitus, 237, 240
- Calcium pyrophosphate dihydrate crystal deposition disease, imaging of, 379
- Cancer. See *Malignancy*.
- Candidiasis, of nail, in athletes, 517
- Cast, in clubfoot treatment, 4-6, 32-35
- postoperative, for amputation, 588-589
- Cavus foot, in Charcot-Marie-Tooth disease, 103
- in hereditary motor sensory neuropathy, pathogenesis of, 112
- C-E angle, in hip radiology, 192
- Cellulitis, in diabetes mellitus, 240-241
- magnetic resonance imaging of, 254-256
- nuclear medicine scans of, 247
- Central polydactyly, 655-657
- Cerebral palsy, hip instability in, 184-185, 197
- Charcot arthropathy, after amputation, 731, 733-734
- Charcot-Marie-Tooth disease, 99-116
- electrodiagnostic studies of, 110-111
- historical review of, 100
- in pediatric patients, 111
- pathogenesis of, 111-112
- treatment of, 112-113
- type I (hypertrophic), 101-104
- pathogenesis of, 109-110
- type IA, 104-105
- type IB, 105-106
- type IC, 106
- type II (neuronal form), 106-108
- pathogenesis of, 109-110
- subtypes of, 107
- types XI and X2, 106
- Cheilectomy, in hallux limitus, 423-424
- Chemotherapy, with amputation, in malignancy, 615-616
- Chopart amputation, 754, 756
- prostheses for, 780-782
- versus Syme's ankle disarticulation, 763
- Chopart joint, neuroarthropathy of, in diabetes mellitus, 237, 239
- Chrisman-Snook modification, of Elmslie procedure, for ankle stabilization, 463, 466
- Chromosomal abnormalities, hip instability in, 184
- Cigarette smoking cessation programs, in amputation prevention, 792-798
- Circular Torquheel device, 227-228
- Claudication, in peripheral vascular disease, abdominal aortic, 268-269
- exercise program for, 267
- femoral arterial, 269
- iliac arterial, 269
- Clawtoes, in hereditary motor sensory neuropathy, pathogenesis of, 112
- Cleft foot deformity (ectrodactyly), 637-642
- Closure, of amputation site, 699-700
- Clubfoot, 9-56
- causes of, 15
- classification of, 14-16
- clinical evaluation of, 23, 26
- constricting bands with, 636
- historical review of, 11-14
- incidence of, 14

- late presentation of, treatment of, 4-5
 pathologic anatomy of, 15, 17-23
 articular, 18, 20-23
 osseous, 18
 soft tissue, 18-19
 radiographic evaluation of, 25, 27-30
 treatment of, 31-43
 casting in, 4-6, 32-35
 Denis Browne splint in, 1-4
 gangrene after, 659-660
 historical review of, 1-7
 in late presentation, 4-5
 incisions for, 37
 long-term results of, 43-52
 shoes in, 209-211
 soft tissue release in, 37-43
 surgical, 35-43
 timing of, 31-32, 36-37
 Coagulation disorders, arterial occlusion in, 659
 Coalition, rearfoot, 624
 Cognitive deficits, in amputation, 595
 Cold therapy, in athlete rehabilitation, 534-535
 Colville procedure, for ankle stabilization, 467
 Compartment syndrome, in athletes, 454, 575
 in major trauma, 611
 Complete blood count, in preoperative testing, in pediatric patients, 164-168
 Compression, intermittent, in athlete rehabilitation, 538
 Compression syndromes, venous dysfunction in, 278-279
 Computed tomography, of arthritis, 392, 394-396
 of calcaneal fractures, 344-353
 classification system for, 350-353
 technique for, 344-349
 three-dimensional, 349-350
 of diabetic foot, 244
 of hip, 193
 of Morton's neuroma, 305
 of os trigonum syndrome, 297
 of tarsometatarsal joint complex injury, 367
 of tibial torsion, 71-72
 Congenital conditions, amputation in. *See* *Pediatric patients, amputation and salvage procedures in, in congenital conditions.*
 convex pes valgus, in hip instability, 183-184
 shoe therapy for, 212
 Connective tissue diseases, arthritis in, imaging of, 381-382
 Constricting band syndrome, 633-638
 Contact dermatitis, in athletes, 519
 Contractures, in clubfoot, 18-19
 Contralateral foot, in amputation, 593-595
 Contrast baths, in athlete rehabilitation, 535
 Convex pes valgus, congenital, in hip instability, 183-184
 shoe therapy for, 212
 Corns, in athletes, 522
Corynebacterium minutissimum infections, in athletes, 523
 Cotton osteotomy, of cuneiform, in flatfoot, 96
 Counter Rotation System, for in-toe gait correction, 81
 Crosby-Fitzgibbons classification, of calcaneal fractures, 350
 Crush injury, reconstruction in, 604-605
 Cryoamputation, 676-677
 Cryotherapy, in athlete rehabilitation, 534-535
 Crystal deposition diseases, imaging of, 379-381
 Culture, of amputation site, 697
 Cuneiform, osteotomy of, in flatfoot, 96
 Cysts, subchondral, in arthritis, radiography of, 371
 synovial, in athletes, 523
 Dance, overuse injuries in, 525-532
 Dantrolene, in malignant hyperthermia, 143-144
 Dead spaces, at amputation site, 697-699
 Débridement, as amputation alternative, 701
 in amputation, 700-701
 in crush injury, 604-605
 in infection, 670, 674-677, 680-681, 694
 in lawnmower injury, 605
 in trauma, 718
 Deformities, congenital, treatment of. *See* *Pediatric patients, amputation and salvage procedures in.*
 Degenerative joint disease, imaging of, 377-379
 Degloving injuries, treatment of, 717-718
 Dejerine-Sottas syndrome, 108
 Denis Browne splints, 1-4, 223-224
 in in-toe gait, 77-81
 Dermatitis, in athletes, 519
 Dermatofibromas, in athletes, 524
 Dermatologic problems, in athletes, 511-524
 black heel syndrome, 511-512
 blisters, 512
 bruises, 512-513
 bursitis, 513
 erythrasma, 523
 excrescences, 521-523
 fissures, 513-514

- Dermatologic problems (*Continued*)
 foreign bodies, 514-515
 ganglions, 523-524
 hyperhidrosis, 515-516
 nail diseases, 516-517
 psoriasis, 519-521
 puncture wounds, 514-515
 tinea pedis, 517-519
 in ballet dancers, 531
 Dermatophytosis, in athletes, nail, 516-517
 skin, 517-519
 Desflurane, for pediatric patients, 142
 Desyndactyly, 655
 Dexamethasone, in iontophoresis, in
 athlete rehabilitation, 536
 Diabetic foot, 235-264
 contributing factors in, 235-241
 imaging of, 241-261
 after surgical changes, 259
 angiography in, 244
 computed tomography in, 244
 in edema, 253-254
 in ischemia, 258-259
 in neuroarthropathy, 257-258, 261,
 383-384
 in osteomyelitis, 244, 246-252, 256-
 257, 260, 383-384
 in soft-tissue fluid collections, 254-256
 magnetic resonance, 252-261
 magnification radiography, 243-244
 nuclear medicine scans in, 244, 246-
 252
 radiography in, 242-243
 in athletes, precautions in, 520-521
 infection in, 240-241
 ischemia and infection in. *See Ischemia,*
amputation and salvage procedures in.
 long-term care of. *See Amputation, preven-*
tive interventions for.
 neuroarthropathy in, 235-239, 257-258,
 261, 383-384
 toe amputation in, 691-693
 vascular compromise in, 237, 240
 Digit(s). *See Toe(s).*
 Digital nerves, neuroma of. *See Morton's*
neuroma.
 Disarticulation, ankle, in tibial hemimelia,
 632
 Syme's. *See Syme's amputation,*
transmalleolar.
 metatarsophalangeal joint, 715-717
 Dislocation, hip. *See Hip, instability of.*
 Disseminated intravascular coagulation,
 ischemia in, amputation and salvage
 procedures in, 657
 Doppler studies, in healing prediction,
 669-670
 Dorsal-plantar flaps, in digital amputation,
 709-711
 Drains, for amputation site, 697-698, 706
 Dressings, for amputation, 588-589,
 726-727
 transmetatarsal, 747
 for infected wounds, 670-671
 Droperidol, as premedication, for pediatric
 patients, 137
 Drugs, in athlete rehabilitation, in
 iontophoresis, 536
 in phonophoresis, 537-538
 Dry gangrene, treatment of, 678-681
 Duplication, of toes (polydactyly), 652,
 654-657
 Dyskinesia, post-static, in heel-spur
 syndrome, 503
 Dysplasia, hip. *See Hip, instability of.*
 Eastwood classification, of calcaneal
 fractures, 350
 Ecchymosis, in athletes, 512-513
 Ectrodactyly, 637-642
 Edema, in diabetes mellitus, magnetic
 resonance imaging of, 253-254
 intermittent compression in, 538
 EDIN procedure, in Morton's neuroma, in
 athletes, 497-500
 Ehlers-Danlos syndrome, ligamentous
 laxity in, 125-126
 Electrical agents, in athlete rehabilitation,
 536-537
 Electrodiagnostic studies, in hereditary
 motor sensory neuropathy, 110-111
 type I, 103-104
 type II, 107-108
 type III, 108
 Elmslie procedure, for ankle stabilization,
 463, 466
 Emotional shock, in amputation, 589-590
 Energy cost, of amputation, 599-602
 Enflurane, for pediatric patients, 142
 Environmental modifications, for
 amputation, 596
 Epiphyseal arrest, plantar, of first
 metatarsal, in flatfoot, 96
 Epiphysiodesis, in macrodactyly, 650
 Equinovalgus deformity, in fibular
 hemimelia, 624
 in tibial hemimelia, 625
 Equinovarus deformity, in midfoot
 amputation, 753-754
 Achilles tendon lengthening in,
 756-759
 Ergotism, angiography of, 273
 Erosions, in arthritis, radiography of, 371,
 380-381
 Erythrasma, in athletes, 523
 Eschar removal, in amputation, 700
 Evans procedure, for ankle stabilization,
 463-464

- Excrecences, in athletes, 521-523
- Exercise, heel-spur syndrome development in, 508-509

- Tendon injuries, 313-335
 anatomic considerations in, 313-315
 magnetic resonance imaging of, Achilles tendon, 317-320
 anterior tibial tendon, 329-331
 flexor hallucis longus tendon, 328-329
 peroneal tendons, 324-328
 posterior tibial tendon, 320, 322-324
 technique for, 316-317
 pathogenesis of, 314
- Tendonosis, definition of, 314
 of Achilles tendon, magnetic resonance imaging of, 317-319, 321
- Tenography, in arthritis, 390, 392-393
- Tenosynovial cysts, in athletes, 523
- Tenosynovitis, magnetic resonance imaging of, flexor hallucis longus, 328-329
 peroneal, 326-327
 peroneal, in athletes, 455-456
- TENS (transcutaneous electrical nerve stimulation), in athlete rehabilitation, 537
- Terminal Syme's amputation, 707-708
- Thermotherapy, in athlete rehabilitation, 535
- Thiopental, in pediatric surgery, 142
- Thromboangiitis obliterans, angiography in, 273
- Thrombosis, venous, venography in, 278-279
- Tibial arterial disease, angiography of, 270
- Tibial fractures, in ballet dancers, 531
 in young athletes, 574
- Tibial hemimelia, 624-626
 treatment of, 626-627, 632-633
- Tibial tendon, dysfunction of, in athletes, anterior, 574
 posterior, 479-488, 569, 574
- injuries of, magnetic resonance imaging of, anterior, 329-331
 posterior, 320, 322-324
- Tibial torsion, internal, splinting for, 218
 in-toe gait in, 68-73
 Denis-Browne splints for, 77-80
 gait compensations in, 73-75
 internal, 68, 70-71
 measurement of, 71-73
 natural history of, 69-71
 normal values of, 69-71
 presentation of, 68-69
 transverse plane deformities in, 73-77
 residual, consequences of, 75
 shoe therapy for, 211
- Tibial Torsion Transformer, 227
- Tibiofibular torsion, 68, 70
- Tibiotalar torsion, 69
- Tinea pedis, in athletes, 517-519
- TIPC mnemonic, for amputation decisions, 693
- Tissue stabilization, in amputation, 700-701
- Tobacco use, cessation programs for, in amputation prevention, 792-798
- Toe(s), absence of, in ectrodactyly, 637-642
 amputation of, 691-739
 biomechanical effects of, 777-778
 complications of, 728-735
 definitive, 696
 distal, advantages of, 696
 incidence of, 691
 indications for, 693-696
 postoperative care in, 726-728
 prevention of, 692-693
 principles of, 696-700
 procedures for, 701-721
 alternatives for, 701-707
 dorsal-plantar flaps in, 709-711
 for soft-tissue coverage, 719-720
 in toe-to-thumb transfer, 720
 in trauma, 717-719
 medial-lateral flaps in, 709-710
 medial-plantar flaps in, 711, 713
 metatarsophalangeal joint disarticulation in, 715-717
 Syme's, 707-708
 trap-door flaps in, 713, 715
 prostheses for, 728, 777-778
 rehabilitation after, 727-728
 tissue stabilization in, 700-701
- arthroplasty of, versus amputation, 694-695, 702-707
- clawed, in hereditary motor sensory neuropathy, pathogenesis of, 112
- constricting band syndrome of, 633-636
- crush injury of, reconstruction in, 604-605
- denervation of, in macrodactyly, 650
- drifting of, after amputation, 735
- excess number of (polydactyly), 652, 654-657
- hammer, in hereditary motor sensory neuropathy, pathogenesis of, 112
- hemihypertrophy of (macrodactyly), 644-652
- hypoplastic (microdactyly), 652
- infection of. *See Infections.*
- ischemia of. *See Ischemia.*
- malignant melanoma of, treatment of, 616-617
- malposition of, in brachymetatarsia, 642-643
- pressure measurement in, in healing prediction, 669, 743-744
- sand, rehabilitation in, 555-556
- strangulation of, from constricting object, 660-661
- turf, hallux limitus and, 422
- rehabilitation in, 555-556
- webbed (syndactyly), 652, 654-657

- Toeing-in. See *In-toe gait*.
 Toeing-out, shoe therapy for, 212-213
 Toe-to-thumb transfer, amputation for, 720
 Tophi, in gout, imaging of, 379-380
 Torquheel device, circular, 227-228
 Torsion, definition of, 58
 Torticollis, hip instability with, 184
 Total lymphocyte count, in healing prediction, 670, 765
 Tourniquet, for amputation, 746
 Transcutaneous electrical nerve stimulation, in athlete rehabilitation, 537
 Transcutaneous oxygen measurement, in healing prediction, 669, 743, 765
 Transmalleolar amputation. See *Syme's amputation, transmalleolar*.
 Transmetatarsal amputation, 741-762
 anesthesia for, 745
 biomechanical effects of, 778
 elective, 742-744
 emergent, 742-744
 function after, 759-760
 indications for, 741-742
 level for, 742-744
 open (guillotine), 752-753
 plantar ulcer excision with, 747, 751-752
 postoperative care in, 747
 principles of, 746, 748-750
 prostheses for, 778
 technique for, 746-747
 Transplantation, hallux, to hand, 720
 Transverse friction massage, in athlete rehabilitation, 538-539
 Trap-door flaps, in digital amputation, 713, 715
 Trauma, amputation in, 694
 digital, 717-719
 major, 603-612
 case studies in, 604-608
 crush injury, 604-605
 dilemmas in, 603-604
 lawnmower injury, 605-608
 predictive guidelines for, 608-610
 treatment of, 610-611
 Traumeel, in Achilles tendon injuries, 450-451, 453
 in peroneal tendon injuries, 456-457
 Trendelenburg test and gait, in hip instability, 189, 194-195
 Triple hemisection procedure, for Achilles tendon lengthening, 756-759
 Tuber angle of Bohler, 339
 Tumors, 613-620
 amputation in, 615-616
 fibrosarcoma, 616
 malignant melanoma, 616-617
 margins for, 615
 squamous cell carcinoma, 617-619
 diagnosis of, 615
 imaging of, hindfoot, 292-294
 initial evaluation of, 614
 treatment of, 615-616
 Turf toe, hallux limitus and, 422
 rehabilitation in, 555-556
 Twister cables, for splinting, 226
 Tylomata, in athletes, 522-523
- Ulcers, after amputation, 729-731, 776-778
 Syme's, 769, 771
 amputation in, 776
 diabetic. See *Diabetic foot*.
 plantar, excision with transmetatarsal amputation, 747, 751-752
 Ultrasonography, of hip, 192-193
 of Morton's neuroma, 306-308
 Ultrasound, in athlete rehabilitation, 537-538
 Uni-Bar, 224
 Urate crystal deposition diseases, imaging of, 379-381
 Urine testing, preoperative, in pediatric patients, 171-172
- Valenti procedure, in hallux limitus, 425
 Vascular compromise. See also *Peripheral vascular disease*.
 in diabetes mellitus, 237, 240
 angiography of, 244-245
 magnetic resonance imaging of, 258-259
 Venography, in venous disease, 278-279
 Venous disease, venography in, 278-279
 Version, definition of, 58, 60
 Viral infections, in athletes, 518-519
 Vomiting, postoperative, in pediatric patients, 145-146
- Wagner formula, for amputation level, in ischemia, 669
 Walking. See *Ambulation; Gait*.
 Water running, as alternative exercise, in rehabilitation, 533
 Waterman-Green procedure, in hallux limitus, 424
 Watson-Jones procedure, for ankle stabilization, 463, 465
 Webbed toes (syndactyly), 652, 654-657
 Weight distribution, after amputation, 731-732
 Weight training, as alternative exercise, in rehabilitation, 533

Wheaton Brace Extender, for in-toe gait correction, 81

Wheaton Bracing System, 226-227

Windswept deformity, splints for, 219

Wound dehiscence, after amputation, Syme's, 768-769

Xanthomatous lesions, in diabetes mellitus, in athletes, 520-521

Y-line (Hilgenreiner's line), in hip radiology, 190

Zeel, in Achilles tendon injuries, 450-451, 453

in peroneal tendon injuries, 456-457

Zwipp classification, of calcaneal fractures, 350-351
